Use the default options for the rest and click Next

Click Install and wait until the installation complete then click Finish

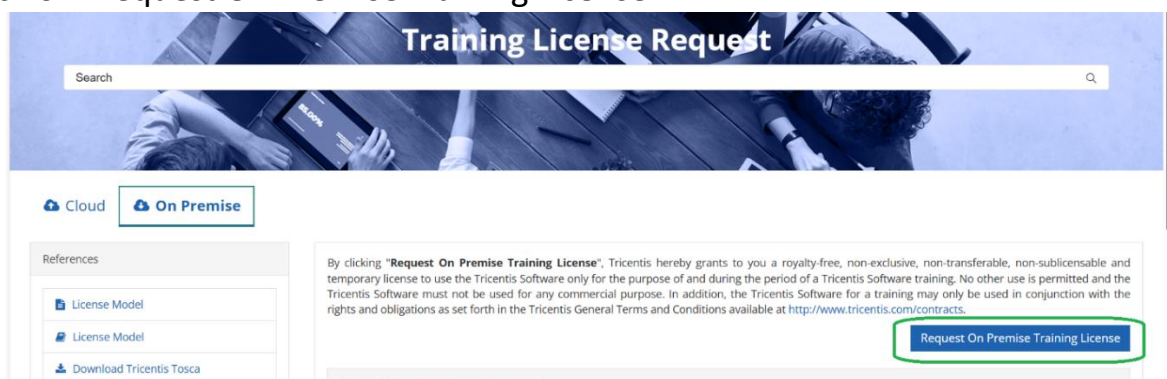

## Request training license:

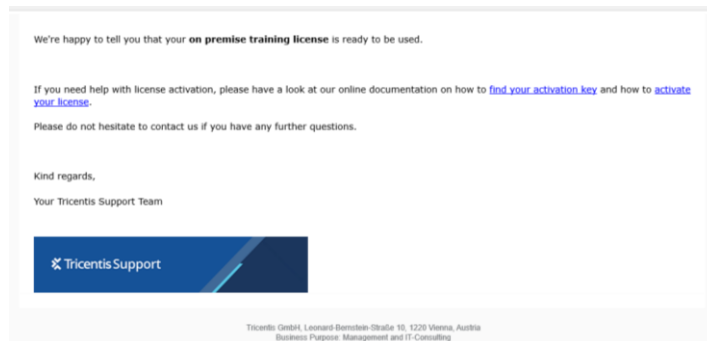

- 1- Login to Tricentis Support Hub: <https://support-hub.tricentis.com>
- 2- Navigate to License Request page: [https://support-hub.tricentis.com/open?id=training\\_license\\_request](https://support-hub.tricentis.com/open?id=training_license_request)
- 3- Click on 'On Premise' button

- 4- Click on 'Request On Premise Training License'

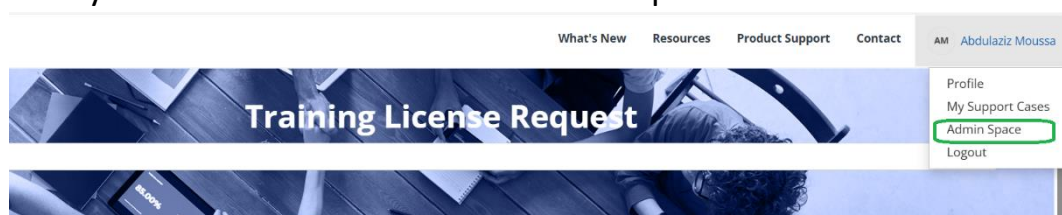

- 5- Wait until you receive the confirmation email

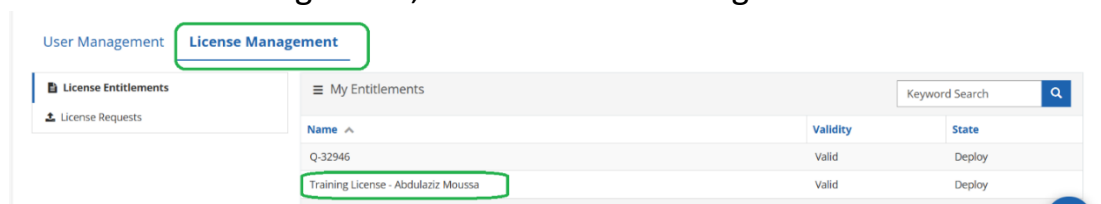

6- Logout and login again so the update can reflect

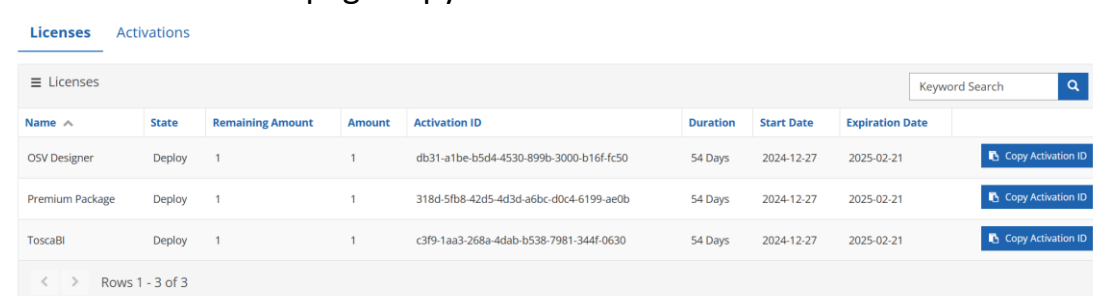

7- Click on your Profile Icon and choose Admin Space

8- Click on License Management, then click on Training License

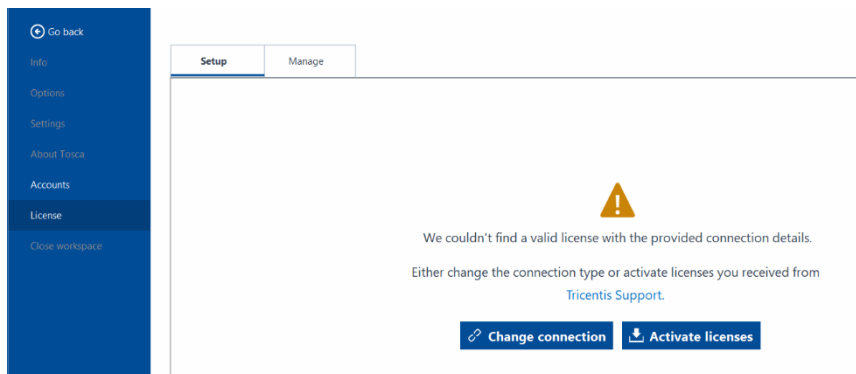

9- In License Entitlement page copy all activation IDs

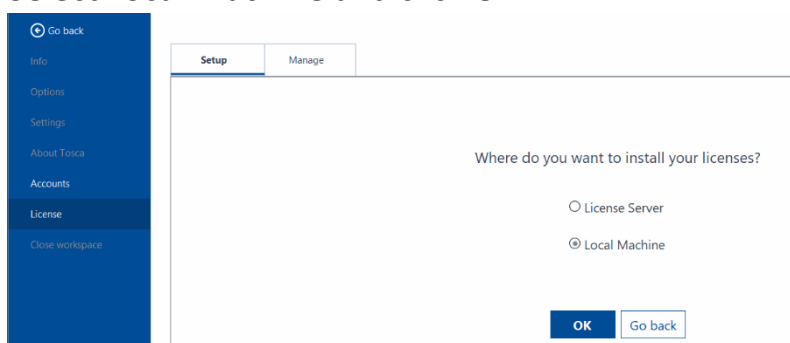

10- Open Tosca Commander navigate to the Project menu and click License.

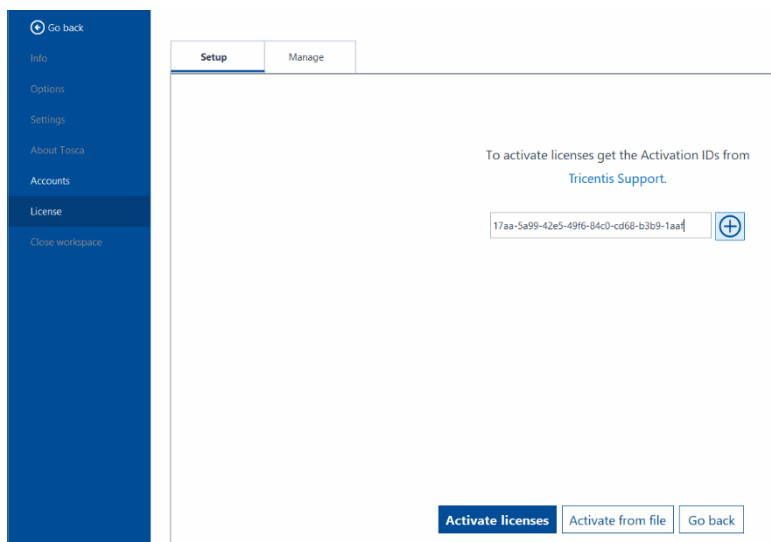

11- Click on Activate License

12- Select Local Machine and click OK

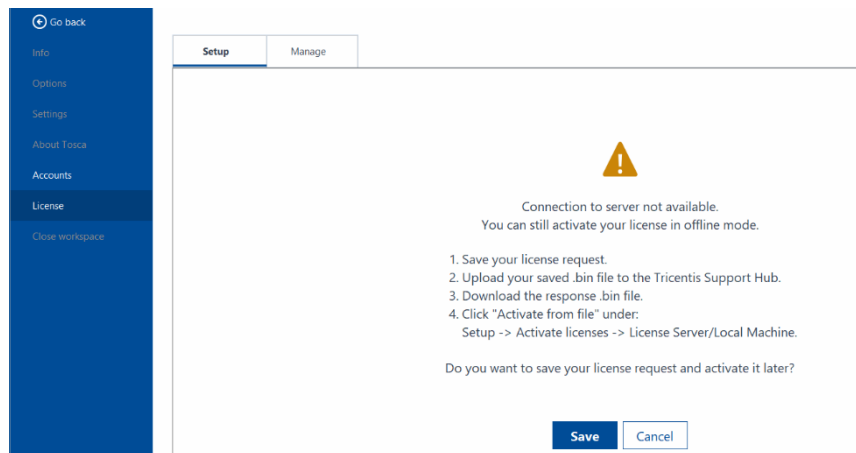

13- Paste the first Activation ID and click on the plus button to add the rest

14- Click on Activate License button.

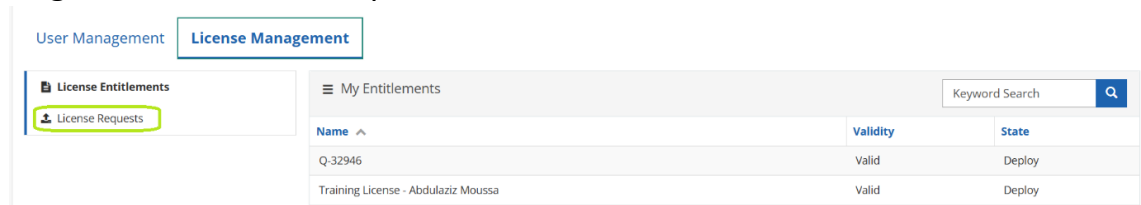

15- If your machine has internet connectivity to Servers your License will be activated, if not you will be prompted with a message below

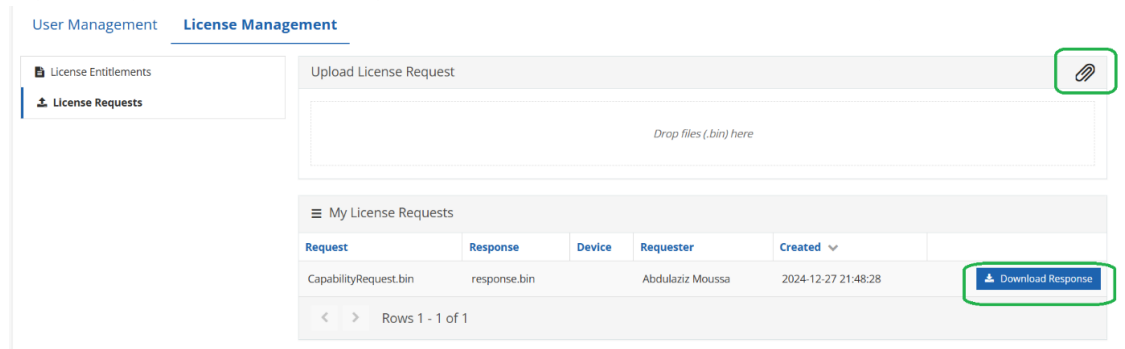

16- Click on Save to save your License Request File

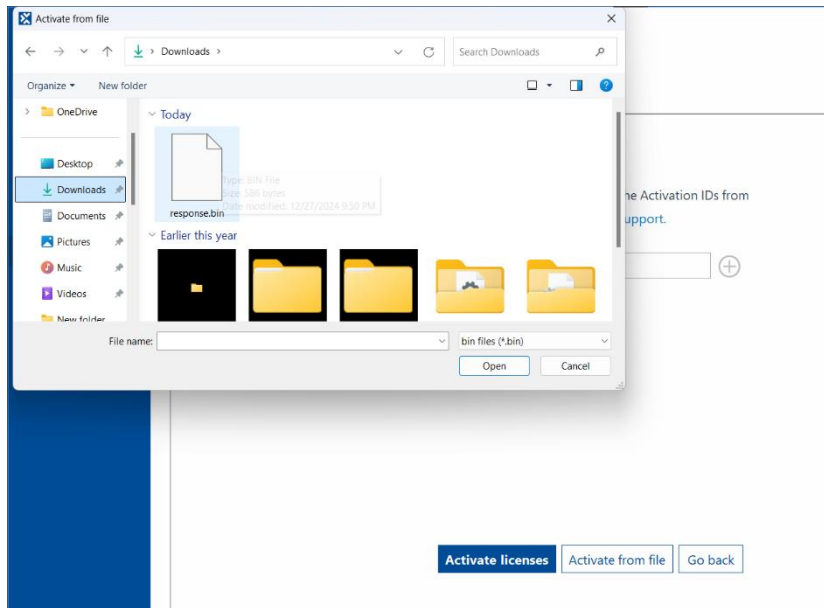

17- Navigate to Tricentis Support Hub > Admin Space > License Management > License Request

18- Upload your License Request and then Download the Response

19- Open Tosca Commander navigate to Project >License >Setup> Activation >Local Machine >Activate from File

20- Select the Response File and you should have successfully activated the Licenses
